

Glystro 25 RTS (Radio Technology Somfy)

Long range, omni-directional radio control eliminates the need to point or aim transmitter at a drapery allowing for enhanced control of individual or groups of window coverings. With RTS, it is possible to combine hand held remotes, wireless wall switches, programmable timers, sun sensors and home automation interfaces for flexible control throughout the home.

Pre-wiring for New Construction

Locate (1) 110V AC Duplex outlet near glystro motor. Motor draws 1.25Amp.
